Regarding claims 21-23, 25-38, 40-48, 50-54, 57 and 58, examiner maintains such claims can be rejected on a similar basis to the above claim rejections.

Response to Arguments

Applicant's arguments filed December 29, 2006 have been considered but are moot in view of the new ground(s) of rejection. Nevertheless, examiner provides the following in response to Applicant's amendment of December 29, 2006.

The Declaration under 37 CFR § 1.131 by David D. Faraldo II filed on December 29, 2006 has been considered but is ineffective to overcome the Mayer reference. The evidence submitted is insufficient to establish applicant's alleged actual reduction to practice of the invention in this country or a NAFTA or WTO member country before the effective date of the Mayer reference. Applicant failed to include Exhibits 1, 2 and 3.

However, examiner is prepared to give Applicant the benefit of the doubt regarding validity of the Declaration under 37 CFR § 1.131 by David D. Faraldo II. Examiner thus makes, per the above Office action, a new ground of rejection based on information provided in the Declaration under 37 CFR § 1.131.

Furthermore, examiner did a new search and maintains the claimed invention can be rejected under one or more of the references cited in this Office action. The effective filing dates of the references cited in this Office action are before the alleged actual reduction to practice of the present invention, i.e., August 30, 2000.
